██ ████

■ ████
- Ubuntu 20.04+
- Python 3.8+
- PostgreSQL ████████████

■ ████
```
sudo apt update
sudo apt install python3 python3-pip git -y
pip3 install -r requirements.txt
```

████ requirements.txt:
```
requests
pandas
beautifulsoup4
psycopg2-binary
lxml
apscheduler
```

■ ██████

1. ████
```
git clone https://github.com/lskd2019/ercot_price_scheduler.git
cd ercot_price_scheduler
```

2. ███████████
```
python3 scripts/update_latest_lmp_5min.py
```

3. ██████
```
mkdir -p /home/py/log
touch /home/py/log/ercot_price_scheduler.log
```

4. █████████████
██ config/db_config.py:
```
DB_CONFIG = {
    'dbname': 'power',
    'user': 'odoo',
    'password': 'odoo123',
    'host': '10.10.112.106',
    'port': '5432',
}
```

■ ███████Supervisor█

1. ██ Supervisor██████
```
sudo apt install supervisor
```
